 Please describe your concern in detail. Attach additional sheets as necessary.

I AS WELL AS OTHERS WOULD LIKE TO SEE CROSSWALKS
PUT IN FROM ALL CORNERS AT THE INTERSECTION OF
CALIFORNIA CITY BLVD & BOTH NORTH & SOUTH LOOP. AS
SHOWN ON THE ATTACHED DIAGRAM

What would you consider a fair resolution to this concern?

CROSSWALKS ALL AROUND FROM CORNER TO CORNER (PARALLEL)
THIS IS FOR THE SAFETY OF CHILDREN AND OF ALL
PEDESTRIANS, ALSO BIKE RIDERS

To the City of California City:

I would like to see if we could get the crosswalk to go all around the intersection of Cal. City Blvd. and North Loop also on the South Loop side.

Right now there is only a crosswalk on the West side going North and South across Cal. City Blvd. when the children get off the school bus they do not only cross at that point, but from all corners.

This is also a hazard for those who ride bikes down the blvd. cars have come very close to hitting us. If there was a crosswalk line it would slowdown some if not most of the approaching vehicles.

Please not the small diagram at the bottom of the page to help you more understand of what we have and what we would like it to be.

I thank you very much for your attention on this matter and wait for your decision.

Sincerely
Allen Vazquez
